

Cleanroom Latex Gloves

Clean-Grip Cleanroom Latex Gloves

Confidence is key. When you see, smell and stretch our Cleanroom Latex Gloves, you'll feel the quality and consistency that is inherent in all of our gloves. Slip into a pair and you will quickly discover that these are gloves you can rely on for protection, comfort and low particulate levels.

Cleanroom Latex Gloves are ambidextrous and assure chemical resistance to alkalis, acids, alcohols, and ketones. Excellent tensile strength makes our glove strong, durable and comfortable for all day wear. Finger tips are 7 mil thick (8mil on 12" length) providing superb tactile sensitivity.

Gloves are DI wash processed and double poly-bagged to ensure our high quality standards. Available in nine or twelve inch lengths, these durable latex gloves have a rolled cuff for easy donning and a textured grip for sure wet/dry handling. Texture is on the finger tips - where you need it most. The remainder of the glove is smooth to eliminate areas which could retain particulate matter. Sizes range from Small to Extra Large.

Applications: Cleanroom, electronics manufacturing, semiconductor, particle sensitive and low contaminate environments.

Specifications

Tensile Properties

<u>Puncture Resistance</u>	Not Less than 7.0 N
<u>Unaged</u>	
Tensile Strength (MPA).....	Not Less than 21.0
Elongation, %.....	Not Less than 700
Permanent Deformation after 60%Elongation.....	Not Less than 8%
<u>Aged 70 +/- 2° C for 7 days</u>	
Tensile Strength (MPA).....	Not Less than 17.6
Elongation, %.....	Not Less than 500

Dimensions

<u>Width</u>	
Small.....	85 +/- 5 mm
Medium.....	95 +/- 5 mm
Large.....	106 +/- 5 mm
Extra Large.....	116 +/- 5 mm
<u>Length</u>	Not Less than 240 mm
<u>Thickness (single wall)</u>	Not Less than 0.07 mm
