SAP5400 N95 Particulate Respirator

PRODUCT AND TECHNICAL SHEET

The white SAP5400 disposable particulate respirator is supplied in packs of 20 and includes nuisance-level organic-vapor relief. Its N95 designation refers to particle filtration. The vapor-relief feature does not replace respiratory protection selected for hazardous gas or vapor exposures. Select this product under your workplace's respiratory-protection program.

The NIOSH Certified Equipment List identifies Total Source model SAP5400 under Makrite Industries Inc., TC-84A-3323, for N95 particulate protection.
