Advantage Pro Coveralls, Frock and Hood

PRODUCT AND TECHNICAL SHEET

Advantage Pro Coveralls (Elastic Wrist + Ankle)

Advantage Pro coveralls use three bonded polypropylene layers: a meltblown core between two spunbond outer layers (SMS). The SMS fabric offers resistance to water-based splashes. Elastic wrists and ankles finish the garment. Available in sizes Small through 5XL, with 25 coveralls per case.

Advantage Pro Hood (Elastic Face)

The Advantage Pro hood uses three bonded polypropylene layers: a meltblown core between two spunbond outer layers (SMS). The SMS fabric offers resistance to water-based splashes. Its elastic face opening holds the separate hood around the face. Sold by the case for inclusion in your facility's gowning procedure.

White with an elastic face opening and one-size fit. Supplied 100 per case.
