Advantage Pro Apron and Sleeves

PRODUCT AND TECHNICAL SHEET

Advantage Pro Apron

The Advantage Pro apron is made from three bonded polypropylene layers: a meltblown core between two spunbond outer layers (SMS). The SMS fabric offers resistance to water-based splashes. An overhead strap and waist ties secure the apron over clothing. This white apron measures 24 × 42 inches and is supplied in cases of 100.

Order configurations

SKU	Option
APP0280-ADP	24 x 42 (inches)

Advantage Pro Sleeves

Advantage Pro sleeves are made from three bonded polypropylene layers: a meltblown core between two spunbond outer layers (SMS). The SMS fabric offers resistance to water-based splashes. Elastic openings at the wrist and upper arm hold the sleeves over clothing. Available in white, in 18-inch and 20-inch lengths, with 200 sleeves per case.
