MATERIAL SAFETY DATA SHEET

ADVANTAGE PRO

Identification

Product Description: Advantage Pro is perfect for multiple situations where dry particulate barrier and repellency are needed. Lightweight and breathable, yet strong and durable. Advantage Pro is anti-static treated material.

Physical and Chemical Properties

Material: Spunbonded-meltblown-spunbonded polypropylene fabric.

Process: When meltblowing is combined with spunbonds to form SMS products, a lighter, more durable and efficient fabrics have resulted, and multiple-layered fabrics are now routinely produced.

Potential Health Effects/First Aid Measures

Potential Health Effects: Eye contact will produce a mechanical irritation. Skin contact should produce no skin irritation, swelling, or sensitization.

Storage

Storage: Store non-woven fabric in a warehouse equipped with a sprinkler system. Do not store near flame, heat, or strong oxidants, such as hot or concentrated nitric acid or fuming sulfuric acid.
